

WOOD MACHINE TRAINING

WHAT IS WOOD MACHINING TRAINING?

Unit and modular approach to allow individuals (novices and experienced staff) to receive practical training on woodworking machines, including sawing, planing, moulding and jointing machines.

All courses are tailored to the requirements of the individual and/or business needs.

LEGAL REQUIREMENTS

Regulation 9, The Provision and Use of Work Equipment Regulations require every employer to ensure that all employees who use work equipment have received suitable and sufficient training.

Refresher training to be taken every 3 to 5 years to maintain personnel competency inline with current HSE guidance.

WHAT TRAINING WILL I RECEIVE?

- Selection of most suitable machine
- Selection and setting of guards
- Selection and setting of tooling
- Safe setting and using of machine
- Use of safety devices
- Legal requirements
- Productivity improvement

ADDITIONAL BENEFITS

- Training from fully qualified Didac staff
- Ensure you are working to current legal and good practice requirements
- Improved Health & Safety
- Improved productivity

WHAT QUALIFICATION WILL I ACHIEVE?

- Woodwise Certificate of Training (minimum standard to be Health & Safety requirements)

DURATION

- This will depend upon individual competency and number of machines
