HARNESS TRAINING

Safe use and inspection training

EQUIPMENT REQUIREMENTS

The client is responsible for supplying all equipment and PPE.

Please be sure that the facilities available on site including are suitable for training. Basic comfort and welfare facilities must also be provided.

Equipment Requirements

- Safety Harness
For inspection, at least one harness should be made available for training. Desirably a selection of harnesses should be made available as this will make for a more interesting and informative session and improve the quality of training.
- Office / Classroom / Cabin
A well-lit and suitably heated closed door environment to conduct theory training. Tables and chairs to accommodate all learners and the trainer assessor, this must include writing space for all learners. A screen or projector is desirable but not essential.
Exclusive use of this facility is required for the duration of training.
